2012

Saving and Savoring Maine's Apple Heritage

Why not go out on a limb? That's where the fruit is.

## Greetings from Super Chilly Farm and Out on a Limb Apple CSA!

We are gearing up for the fourth year of our Out on a Limb Apple CSA, and we hope you will join us! Once again we'll be offering a wide assortment of endangered, historical and just plain unusual eating and cooking apples, including some that we've never offered before.

If you'd like to participate, ***please sign up no later than August 28th!***

**This year we are expanding the number of shares we will be offering and increasing the number the pick up locations. In addition to being able to pick up in Portland and at our farm in Palermo, we also hope to offer pick up locations in Waterville, Freedom, Belfast, and Mount Desert Island. So please spread the word to your friends who live in these areas.**

### ***How does the Out on a Limb Apple CSA work?***

The CSA distribution will take place every other week from the second week of September to the second week of November. There will be five deliveries in total.

### ***What kinds of apples will I be getting?***

Over the course of the season you'll receive 20 or more varieties of rare and highly flavored apples with a wide range of uses, appearances, histories and flavors. In each delivery you will receive a mix of dessert apples (for eating fresh) and culinary apples. We will make sure you have enough of the culinary varieties to cook up into a dish.

***How many apples will I be getting?***

You will get approximately 1/4 bushel of apples at each pickup (about 10-12 lbs). Each variety will be in a labeled bag. **Please bring along your own tote bag or box in which to put the various smaller bags.** Or purchase a large, organic “Out on a Limb” tote bag from us for \$15.

***How will I learn about the varieties I receive?***

Every Tuesday that you have a pick-up, we will email you a newsletter with descriptions, history, and lore about each variety, as well as recipes and ideas for how best to use them.

***Are the apples organic?***

Some varieties will be organically grown, others conventionally grown with IPM. We will let you know which is which.

***What if I want more of some of the apples?***

If you'd like to have more of a particular apple for a restaurant menu, or to store or preserve, some varieties will be available for order by the bushel, to be delivered at your next pick-up.

***When and Where do I pick up my order?***
